

Sky Solar Receives Continued Listing Standards Notice From The Nasdaq Stock Exchange

10/5/2018

HONG KONG, Oct. 05, 2018 (GLOBE NEWSWIRE) -- Sky Solar Holdings, Ltd. (NASDAQ:SKYS) ("Sky Solar" or "the Company"), a global developer, owner and operator of solar parks, today announced that on September 18, 2018, it received notice from the Nasdaq Stock Exchange ("Nasdaq") that the Company did not meet the Nasdaq's price criteria for continued listing standard because the average closing price of the Company's American Depository Shares, or ADSs, was less than \$1.00 per ADS over a consecutive 30-trading-day period.

Under Nasdaq's listing rules, the Company has six months following receipt of the notification to regain compliance with the minimum share price requirement. The Company can regain compliance at any time during the 180-day cure period if the Company's ADSs have a closing bid price of at least \$1.00 for a minimum of ten consecutive business days.

The Company's ADSs will continue to be listed and traded on Nasdaq, subject to compliance with other Nasdaq's continued listing standards and oversight by Nasdaq. Sky Solar is currently in compliance with all other Nasdaq's quantitative continued listing standards. The Nasdaq notification does not affect the Company's business operations or its Securities and Exchange Commission reporting requirements.

About Sky Solar Holdings, Ltd.

Sky Solar is a global independent power producer ("IPP") that develops, owns, and operates solar parks and generates revenue primarily by selling electricity. Since its inception, Sky Solar has focused on the downstream solar market and has developed projects in Asia, South America, Europe, North America and Africa. The Company's broad geographic reach and established presence across key solar markets are significant differentiators that provide global opportunities and mitigate country-specific risks. Sky Solar aims to establish operations in select geographies with highly attractive solar radiation, regulatory environments, power pricing, land availability, financial access and overall power market trends. As a result of its focus on the downstream photovoltaic segment, Sky Solar is technology agnostic and is able to customize its solar parks based on local environmental and regulatory requirements.

Safe-Harbor Statement

This press release contains forward-looking statements. These statements constitute "forward-looking" statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, and as defined in the U.S. Private Securities Litigation Reform Act of 1995. These forward-looking statements can be identified by terminology such as "will," "expects," "anticipates," "future," "intends," "plans," "believes," "estimates" and similar statements. Among other things, the quotations from management in this press release and the Company's operations and business outlook contain forward-looking statements. Such statements involve certain risks and uncertainties that could cause actual results to differ materially from those in the forward-looking statements. These risks and uncertainties include, but are not limited to the following: the reduction, modification or elimination of government subsidies and economic incentives; global and local risks related to economic, regulatory, social and political uncertainties; resources we may need to familiarize ourselves with the regulatory regimes, business practices, governmental requirements and industry conditions as we enter into new markets; our ability to successfully implement our on-going strategic review to unlock shareholder value; global liquidity and the availability of additional funding options; the delay between making significant upfront investments in the Company's solar parks and receiving revenue; expansion of the Company's business in the U.S. and into China; risk associated with the Company's limited operating history, especially with large-scale IPP solar parks; risk associated with development or acquisition of additional attractive IPP solar parks to grow the Company's project portfolio; and competition. Further information regarding these and other risks is included in Sky Solar's filings with the U.S. Securities and Exchange Commission, including its annual report on Form 20-F. Except as required by law, the Company does not undertake any obligation to update any forward-looking statements, whether as a result of new information, future events or otherwise.
